Insight Strategic Wealth, LLC (hereinafter “ISW” and formerly CTM Financial, LLC (“CTM”) is registered with the Securities and Exchange Commission as an investment advisor. Fees for brokerage and investment advisory services differ among broker-dealers and investment advisors and it is important you understand the differences. What investment services and advice can you provide me?

We offer wealth management services to retail investors, which include financial planning and portfolio management services. We provide periodic advice and reviews regarding your investment goals and objectives, personal balance sheet, tax planning, risk management, retirement, education, cash flow and investment planning. In our portfolio management services, we will continuously monitor your investment accounts over which you provide us with such authority and provide advice. In your investment advisory agreement with us, you may give us discretion to determine the investments to buy and sell on your behalf and the authority to select other investment advisers on your behalf, which means we will make the ultimate decision regarding the investments purchased and sold in your account. If you do not provide us with discretion, then we will make recommendations which you will have the final decision regarding implementation. You may impose reasonable restrictions on our discretionary authority which must be provided to us in writing. As part of portfolio management services, we will continuously monitor your investments. We require a minimum initial and ongoing account size for portfolio management services. We also provide advice in the form of Financial Planning. Various types of reports or financial analysis may be provided to the client. The types of reports provided to clients will vary depending upon the services requested by the client.

Our investment advice is not limited to certain products or types of investments; however, we generally recommend portfolios consisting of mutual funds offered by Dimensional Fund Advisors (DFA) and Vanguard.

We will discuss the following questions with you to help you better understand the relationship you will have with our firm: *Given my financial situation, should I choose an investment advisory service? Why or why not? How will you choose investments to recommend to me? What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?*

Please refer to our [Form ADV, Part 2A Brochure](#), located at <https://adviserinfo.sec.gov/firm/summary/147290> for more detailed information on our services.

What fees will I pay?

We charge fees for our advisory services and those fees vary among the different types of services we offer. We charge a percentage of assets under management for portfolio management services which are assessed on a quarterly basis, in arrears. Our fee schedule is tiered so as the clients assets increase and enter into a new tier, the fee percentage decreases. However we are incentivized to encourage you to increase the assets in your account. We only charge hourly financial planning fees for clients that do not have assets under management.

In addition to our fees, you may incur additional fees and costs related to the investments in your account, such as custodian fees, account maintenance fees, transaction costs, surrender charges, wire transfer and electronic fund fees, internal management fees of mutual funds and variable annuities, and other product related fees such as redemption fees. You will not pay fees incurred from ISW’s use of a third-party, sub-advisory service. Those fees are paid by ISW.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

You should carefully review our [Form ADV, Part 2A Brochure](https://adviserinfo.sec.gov/firm/summary/147290), located at <https://adviserinfo.sec.gov/firm/summary/147290> to understand the fees and costs you will pay to us.

We will discuss the following question with you to help you better understand the impact of fees and costs on investments: *Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?"*

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment advisor, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means: We recommend mutual funds whose investment companies provide us with educational information and software that provides information helpful in our investment advice process. This is a conflict because we have an incentive to recommend mutual funds that provide us with these tools. Additionally, members of ISW are also partners of the accounting firm Conry-Taylor and Company CPAs PC ("CT&C CPA") and are practicing CPAs. CT&C CPA may recommend ISW to accounting clients in need of advisory services and we may recommend CT&C CPA to advisory clients in need of accounting services. We have an incentive to recommend them to you which is a conflict of interest.

We will discuss the following question with you to help you better understand the conflicts of interest we have: *How might your conflicts of interest affect me, and how will you address them?*

How do your financial professionals make money?
